

MT235 Battery Tester

The MT235 is a universal digital battery tester that measures and displays the voltage of the battery under test. It is ideal for use on all common batteries from small to large – N, AAA, AA, C, D, 9V, 3.7V Lithium-ion, 3V Button Cells, 12V A23 and A27 alkaline batteries, 15V and 22.5V batteries, plus Ni-MH and Ni-Cd rechargeable batteries. Easy to use by just selecting the battery type and connecting the leads to the battery, or simply insert the button cell into the slot on the side of the meter. No internal battery required as the unit powers itself up from the battery under test. The perfect household battery tester for disposable and rechargeable batteries.

Features

- Three measurement methods
- Pocket size
- Easy to read LCD display
- Easy to use
- Light weight and portable

| Battery Type | Load Current | Minimum Voltage for Good |
|------------------|--------------|--------------------------|
| Button cell 1.5V | 50mA | 1.125V±0.09V |
| AAA-N-1.5V | 50mA | 1.125V±0.09V |
| AA-C-D-1.5V | 150mA | 1.125V±0.09V |
| Lithium 3V | 100mA | 2.25V±0.18V |
| 6V | 10mA | 4.5V±0.36V |
| 9V | 10mA | 6.75V±0.54V |
| 12V | 10mA | 9V±0.72V |
| 15V | 10mA | 11.25V±0.9V |
| 22.5V | 10mA | 16.875±1.35V |
