

MT963 Moisture Meter

The M963 provides moisture measurements in wood and other building materials. The meter clarifies wood into four grades based on material type and density which includes wood, plywood, paper and other wooden materials. There is the option of three grades for building materials such as cement mortar, lime mortar and brick. The backlit LCD displays the moisture as a percentage in the wood or other materials being tested. The miniature and pocket design with high precision makes it a perfect choice for measuring moisture.

Features

- Selection of 4 grades of wood and 3 grades for construction material
- Simultaneously displays moisture percentage and temperature
- Data lock
- Backlit display

Function	Range
Wood	6.0% - 39.0% (Grade 1)
	7.0% - 48.0% (Grade 2)
	8.5% - 55.0% (Grade 3)
	9.5% - 65.0% (Grade 4)
Construction Material	0.0% - 7.9% (Grade 5)
	0.0% - 8.5% (Grade 6)
	0.0% - 15.2% (Grade 7)
Temperature	0°C to 50°C
Display	Simultaneous Backlit LCD Display
Auto Power Off	10 minutes approx.
Batteries	2x AAA
Dimensions	94 x 43 x 25mm
Weight	45g

Simultaneously display moisture percentage and temperature

Integral electrode pins
